

Srinivas Vijayakumar

Product Engineering Lead / Hands-On CTO /
Full-Stack & Distributed Systems

◆ Chennai, India ☎ +91 80562 99487 @ atvdru@gmail.com
in [linkedin.com/in/srinivas-vijayakumar](https://www.linkedin.com/in/srinivas-vijayakumar)

◆ PROFILE

Hands-on CTO and product engineer with 8+ years across full-stack development, platform architecture, real-time/offline systems and technical leadership. Currently lead ~10 engineers across 10+ production products serving ~3.0M users and ~60 clients, with 39M+ coupons/rewards distributed. Strong in TypeScript/Node.js, React/React Native, PostgreSQL, GraphQL and AWS; experienced rebuilding legacy platforms, shipping MVPs under tight timelines, and working directly with founders and enterprise clients.

Availability Open to UK relocation · Skilled Worker sponsorship required

◆ EXPERIENCE

Extraa

Jan 2023 – Present
Chennai, India

Chief Technology Officer

- ◆ Lead ~10 engineers across 10+ production products, working directly with the founder and strategic clients; rebuilt Extraa from a legacy PHP/Yii/MySQL system into a React + Hasura/GraphQL + managed PostgreSQL/serverless platform, recreating the core product in ~1 month.
- ◆ Own technology across platforms serving ~3.0M users across ~60 clients with 39M+ coupons/rewards distributed — clients including GoGas, Rapido, Zomato, Mahindra and Aditya Birla Group.
- ◆ **GoGas** — loyalty for ~500K registered drivers (4.9M+ coupons) plus a cashless CNG fleet programme with configurable cashback that adapts to fuel-price and station-level incentives.
- ◆ **WE1 Dubai Summer Carnival** — offline-first NFC wallet for the event (held in Chennai): 73,449 attendees, 21,116 cards, ~60 POS across 54 stalls; AES-encrypted card state with duplicate detection and server reconciliation so redemptions continued offline.
- ◆ Led rapid product delivery across the client base: **JITO One World** (1.2M+ users; legacy consolidation into Fastify/Prisma/PostgreSQL), **Aquila EV** NFC campus pass in a week, and Hakkasan membership cards with Apple/Google Wallet in ~2–3 weeks.

◇ CORE SKILLS

PRODUCT & LEADERSHIP	Architecture ownership / technical direction / hiring & mentoring / client discovery / estimation / incident response / cross-functional delivery
FULL STACK	TypeScript / JavaScript / Node.js / Fastify / React / React Native / Vue / Next.js / Astro / REST / GraphQL / Hasura
DATA & SYSTEMS	PostgreSQL / MySQL / Prisma / JSONB / transactional systems / offline-first sync / reconciliation / data migration / performance tuning
CLOUD & OPERATIONS	AWS (RDS · Lambda · API Gateway · Step Functions · S3 · CloudWatch · Amplify) / Docker / Linux / Caddy / PM2
REALTIME / EDGE	NFC / ESP32 / WebSockets / OSC / MIDI / NDI / sensors / MediaPipe / Kinect / LiDAR / multi-display
GRAPHICS / GAMES	openFrameworks / Processing / OPENRNDR / Unity / Three.js / WebGL / GLSL / Hydra / p5.js

◇ EXPERIENCE — CONT.

MELD

Jan 2019 — Present
Chennai, India

Co-Founder, UX & Technology Lead / Advisor

- ◇ Co-founded a design and digital studio (full-time to 2022, advisory since); led UX, web technology, scoping, QA and deployment, taking clients from discovery to launch and evolving the stack from WordPress/Shopify into Vue, React, Next.js, Astro and interactive WebGL.
- ◇ Migrated DreamCricketStore from a broken OpenCart install to Shopify, recovering the catalogue after admin access was lost; built a Three.js 3D product-shopping experience for BLANC and the operator UI for **SOORAN**, a tele-operated unmanned vehicle shown at DefExpo 2020.

Television Dust

Sep 2019 — Present
Chennai, India

Co-Founder & Creative Technologist

- ◇ Built reusable real-time visual systems: **Multo** (openFrameworks video router), **Have A Heart** (ESP32 + Processing generative CRT collage), and OPENRNDR/Unity performance rigs with NDI, MediaPipe, Kinect/LiDAR, OSC and GLSL for Angular Festival and Omnivoid.
- ◇ Commissioned work including lyric videos for “Thaalaatu” and “Vazh Vitta Peyar” from the film **Kuthiraivaal**, and music video & album art for Kaber Vasuki’s **Rowthiram** and **Kadhaigal**.

ThinkTac

Sep 2017 — Jan 2019
Bengaluru, India

Game Designer / Project Lead

- ◇ Designed Android and browser-based educational games translating hands-on science into interactive learning; ran a student game-development programme (Unity + Fungus) overseeing ~100 mini-games.

◇ EDUCATION

M.Sc. Multimedia

2015 — 2017

ICAT College of Design & Media

B.Sc. Design & Visual Communication

2012 — 2015

SRM IST, Chennai

◇ OUTSIDE WORK

Frontman, guitarist and songwriter for The Broadway Addicts; new-media artist with Television Dust.
